STATE OF NORTH CAROLINA
DEPARTMENT OF ENVIRONMENT AND NATURAL RESOURCES
DIVISION OF WATER QUALITY
GENERAL PERMIT NO. NCG240000

TO DISCHARGE STORMWATER AND PROCESS WASTEWATER UNDER THE NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM

for

Compost Facilities

IMPORTANT CHANGES & GUIDANCE

1. 12/08/2011: In response to Section 9 of Session Law 2011-394, DWQ will not implement some of the Authorization to Construct requirements in the current version of the permit, and we will revise the printed text of the General Permit to be consistent at the next scheduled renewal period. Specifically:
   a. In the permit text, Part III Section A items 1, 2, 3, 4, 6, and 7 will be of no effect.
   b. The permit text will retain the requirement for Regional Office notification before a process wastewater system comes on-line, as required by Part III Section A item 5.
   c. Part III Section B generally as to the requirements to effectively operate any wastewater system remains in effect.
   d. DWQ will implement any other internal references in the permit as to Authorization to Construct, or as to Part III, in accordance with items a, b, and c above.
   e. Other DWQ development and supporting documentation outside of the permit text will be amended to reflect the implementation of these changes as time allows.
